### DOOLITTLE'S DEMAGOGISM.

Ex-Senator Doolittle is writing letters to Congressmen Williams, of Wisconsin, telling him that the people of this country pay a tax of \$10,000,000 annually on the circulation of National bank notes, that it costs the people of Wisconsin \$10,000,000 a year, and that it costs the people of Rock county \$100,000 a year. He says that the banks, many of them, are making a practice of coming to this sort of talk in order to win up their affairs as National banks, and to receive without circulation under State laws. He says that he has announced his intention to make this change, and so does the people of Wisconsin. He says that this change, and it would not be surprising if this were made, would be a general throughout the country.—Chicago Times.

There is not an intelligent voter in the First Congressional District but that knows Judge Doolittle wrote fairly when he said that the people of this District are yearly taxed \$10,000 and the tax payers of Rock county \$100,000 annually "for the sole purpose of allowing private individuals to deposit bonds for safe keeping in the vaults of the treasury and draw their regular interest upon them." Had Judge Doolittle made the statement that Rock county is taxed \$10,000 every year solely to support the Hotentots in South Africa, he would have been as near the truth, and would not have made himself more ridiculous. Judge Doolittle knows that neither the First District, nor the county of Rock, is taxed one cent solely to support the present banking system. He made the statement, however, that the District is taxed \$10,000 and the county \$100,000, for that purpose, hoping by such an unblushing political trickery, to delude a portion of the people and thereby induce them to support Parker.

If Judge Doolittle is opposed to the present banking system, he should produce facts to show why it should be abolished, and wherein the issuing of Government notes or certificates, not legal tender, would be cheaper for the Government and better for the people. [At his time of life, he can't afford for character's sake, to stoop to the lowest depths of demagogism in discussing this question. He should be frank and honest, hold fast to the truth, and let others who have nothing to lose morally or politically, do the dirty work.]

Because the banks are compelled by law to secure their circulation by depositing Government bonds in treasury vaults. Judge Doolittle calls that taxing the people for the support of the banks! when he knows that if all the banks were abolished at once, that would not stop the interest on the bonds. The bonds would fall into other hands, and the interest would still have to be paid. If Judge Doolittle will say that he is in favor of repudiating the interest-bearing debt (for the interest can be stopped only by repudiation) then we can see the motive of his argument.

In discussing the question of abolishing the banks which seems to be a hobby with Doolittle and Parker this fall, they attempt to show that the system is an expensive one for the people, while everybody knows who has an intelligent understanding of the system, that it is infinitely cheaper and safer than any other banking system this country ever had. It has never been equalled and can never be surpassed. But while talking about the interest the banks receive, neither Doolittle nor Parker, nor any other of their speakers, say anything of the enormous taxes these institutions pay. They won't mention the fact that the banks in Racine last year paid over \$15,000, in taxes, that the three National banks in Rock county paid \$9,000, and that one bank in Janesville paid \$4,100 of that amount.

The Judge is also careful not to state that the National banking system was forced upon the country at a time when there was a mortal combat between Liberty and Treason—between Freedom and Slavery. Without the system at that time—the banks being compelled to take the bonds—the Government would have been terribly crippled for means with which to carry on the war, and it is not so certain that to have attempted to raise sufficient

money for war purposes in any other manner, would have been in vain.

In the political history of this country there never has been a circumstance more disgraceful and humiliating than the attempt of Samuel J. Tilden and his friends to buy or steal the Presidency. The cypher dispatches which are now being published by the New York Tribune, reveal a terrible story. A key has been discovered to the dispatches, so that there can be no possible doubt as to the correctness of the translations. By these dispatches which passed between Florida and No. 15, Gramercy Park, (Tilden's home), it is known that \$200,000 was offered for a decision of the board in favor of Tilden, and that \$50,000 was offered for one electoral vote! In the same manner they tried to buy a vote in Oregon, for which \$10,000 in gold was offered. But the Republicans were steadfast, and it is to the honor of the party as well as to the country, that these Democratic propositions to purchase the office of President, failed. This will be an interesting subject to engage the attention of the Potter Investigating Committee.

There has been no denial yet from headquarters of Mr. Williams' statement that Judge Doolittle wrote the answer to his letter to Mr. Parker. The New Deal, the Greenback paper at Racine, has denied, or half way denied, that Doolittle wrote the answer; but when the Judge sees fit to deny it, or Mr. Parker comes out publicly and says Doolittle did not write the answer, then Mr. Williams will feel compelled to give his authority for making the statement. Now, Judge, just say in print that you did not write the answer to your own letter. That will enliven the campaign considerably.

Stewart, who is hired to explain Parker's financial position, the latter not being able to do it himself, has assumed the character of the lowest demagogue, by illustrating to his Greenback audiences how Congressman Williams pictured Parker's infirmities in his speech at Beloit. The story is a base slander, as Mr. Williams has not and will not, descend so low as to ridicule the weaknesses of his opponent. He treats Mr. Parker with commanding respect as all Democrats and Republicans—who hear his speeches, will testify.

The Burlington Hawkeye comments on the result in Iowa as follows: "Iowa Republicans have won a grand victory. They have snatched success from the very jaws of defeat. State after State has succumbed to the new epidemic, but Iowa responds with a greatly increased majority over last year's result. We lose two Congressmen, but their places are not filled with regular Democrats. Our organization is more compact and formidable than ever."

During the five years preceding the panic of 1873, this country imported more than it exported, or in other words during the five years named we ran in debt to Europe about 554 millions of dollars. Now see how much better off we are to-day than at that time. For the five years since the panic this country has exported to Europe more than it imported, 443 millions of dollars worth of goods. This shows the country is growing better.

This curious fact is presented in the election in Cincinnati on Tuesday last—a fact which bears a remarkable significance—that the Greenback vote in the entire city, which casts 51,000 votes, was only 501, while in 1877, it was 9,076. This shows the sickly condition of the Greenback party in Ohio. Schurz played an important part in tearing down the rag-money vote.

In the Eighth District in this State, Thad Pound is a candidate for reelection to Congress. Speaker Barrows, Democratic-Greenback, is his opponent. Pound is making an excellent canvass and will be elected. Last year he beat Judge Cate by 978 majority, and having made a good record in the last session of Congress, has gained considerable additional strength.

There are four things the people should remember: (1) the panic was not produced by contraction of the currency; (2) it was caused by running in debt to Europe; (3) that this nation is solvent, having paid about one-third of the public debt in 13 years; (4) that the country is in better condition now than ever before as shown by its increase exports over imports.

Clarkson N. Potter, of New York, has been nominated for Congress in the Twelfth District. Inasmuch as there is five thousand majority in his favor in the District, he will likely be returned.

### WILLIAMS AT ORFORDVILLE.

ORFORDVILLE, Oct. 12.—The largest political meeting ever seen at Orfordville was held last evening at the Methodist church, in this village, which was filled to its utmost capacity to listen to the Hon. C. G. Williams upon the political topic of the day. The Greenback question was discussed in a candid and stirring manner by the speaker who convinced all present that the Greenback that has a Silver lining is what the people want. You may set down Spring Valley for one of the largest Republican majorities that she ever gave. I do not think that there will be a single Greenback vote cast in this town except by Democrats, who hate the Rag-Baby, but since that was hitched on to the tail of the Greeley kite they seem to have lost their anchorage and are drifting before the wind. DANIEL MOWE.

After a Greenback meeting in Maine recently, the orator took up a collection, and found \$9.35 in his hat, in pieces of paper inscribed, "This is a quarter," "This is 50 cents," etc.

### THE FEVER.

A Favorable Wind from the North But No Abatement of the Epidemic.

MEMPHIS, Tenn., Oct. 11, 10 p. m.—Since 7 o'clock to-night another change has taken place in the weather. The wind now blows from the north, and the prospects are flattering for a frost. Many a fervent prayer is ascending to heaven that we will not again be disappointed.

The steamer Gold Dust, from within nine miles of New Orleans, passed up to-day. All on board were reported well. The steamer Whisper from the Ohio River, which had been aground for eight days between here and Cairo, passed down this afternoon. One hundred and three new cases were reported by twenty-two physicians of the Howard medical corps. Fifty-three of these were persons residing beyond the corporation line.

CAIRO, Ill., Oct. 11.—Dr. R. Waldo was taken last night with high fever, but has the best of care, and will no doubt get through. Phil Howard was taken to-day. Mr. Healey died last night. No deaths to-day, but two will occur to-night. The wind was high from the north all day. Many citizens are leaving.

NEW ORLEANS, La., Oct. 11.—Weather clear and warm. Deaths, 49. Cases reported, 164. Total deaths, 3,400. Total cases, 11,296.

### WASHINGTON.

Sunset Cox for Speaker—Republican Campaign Documents.  
WASHINGTON, Oct. 11.—Sunset Cox, now that Saylor is defeated for Congress, announces himself as a candidate for Speaker of the Forty-sixth Congress. The friends of Blackburn, of Kentucky say that Saylor's defeat will greatly

improve Blackburn's chances; that the latter will be the candidate of the Solid South, and that Randall will have no more strength in that section.

The Republican Congressional Campaign Committee issued, since the Ohio election, have decided to print Schurz's finance speech and the President's Minneapolis speech. A local bookseller has already printed, as a private speculation, Schurz's speech in pamphlet form.

### POLITICAL.

Clinton Babbitt, of Beloit, Writes a Letter to the Chicago Tribune.

HEMLOCK ROCK FARM, BELLOIT, WIS., Oct. 9.—Your editorial of the 8th inst., referring to Rock County (Wisconsin) politics, misrepresents one Democrat, at least (having reference to the Republican ticket). And, as I am not a candidate for office and never expect to be, I will risk a letter and define more correctly my position and that of hundreds of other Democratic voters in the First Wisconsin District. I stated at the Williams mass-meeting Saturday night that upon the day of election I should take my ticket with me to the polls, and, with pencil in hand, read it carefully, and when I saw the name of an honest Democrat, a Democrat from principle, and one who was in favor of the present currency of the country—gold, silver, National Bank bills, and greenbacks—that name I would retain and surely vote. But if I chanced to find the printed name of a man, which did not represent a Democrat, of one who had no faith in the established principles of Democracy upon the subject of finance, that name I would erase from my ticket and write in its place the name of an honest Republican who did believe with me in a sound circulating medium, based upon gold and silver.

After election, write pulvers and end-men can understand exactly what my sort of Democrats mean to do with present issues. I am no devoted lover of Republicanism, and never voted the ticket in my life. When a Democrat of the Douglas stripe, or worse, based upon gold and silver, proposed to me, as a Democrat, to run upon a Democratic platform, in the days of the rebellion, false counselors imposed upon his false positions. But the Democrats of the first District uttered their solemn protest and sustained the honor of the flag. We will now as heartily condemn renegade Republicans and trading Democrats, based upon gold and silver, as we ever did. My first vote for an honored son of New Hampshire in the Granite State was headed "Democratic-Republican Ticket." The name is significant, and I have faith that the representatives of Republicanism and true Democracy will unite in common interest and patriotic union in sustaining national integrity and the equal interest of Labor and Capital.

Yours truly,  
CLINTON BABBITT.

P. S.—Williams will win the race. On Oct. 9, it is stated on good authority that Dr. Steed of Appleton was induced to accept the nomination of the Greenbackers on their statement that James V. Jones, had refused to accept the nomination of the Republicans, and that his letter of resignation was at that time in the hands of the Congressional committee, thereby assuring Steed that the victory of the Greenbackers was a foregone conclusion.

### THE OHIO ELECTION.

How the Result is Looked Upon in Washington—Dispatch to a Bourbon Paper.  
WASHINGTON, D. C., Oct. 9.—The result of the election in Ohio staggers every body here. It is fraught with the keenest disappointment. The disappointment of the Democrats is that on an issue so vital as the financial one, the State which gave birth to the "Ohio Idea" should seemingly by its vote strangle its own child. The disappointment to the Republicans is one of the most agreeable surprise. They had expected defeat, had even prepared to yield to the inevitable, and the shock of success has almost carried them away. Sherman is probably the happiest man in Washington to-night. While in actual results the Republicans have suffered more than the Democrats, that fact seems to be lost sight of. The paramount issue was the Ohio result. Upon it hung a thousand apprehensions. It shaped either a new financial policy on the part of the Administration, or decreed the continuation of the Sherman plan. The Sherman plan will be continued. Resumption will be attempted in January next, and the people of Ohio have lost the grand opportunity to check it. So elated are the administration and the party benches that, no matter if the Democrats had carried every Congressional District in Ohio and lost the State, would have been constrained here, nevertheless, as a sweeping Republican victory.

### RESUMPTION.

The Baltimore Gazette Editorial on the Subject of Resumption.  
WASHINGTON, Oct. 11.—The Baltimore Gazette, Democratic, under the head "Resumption a Certainty," this morning says:

The main question of the campaign was decided by the October elections. It is that resumption will not be repealed, and that resumption will quietly take place in January next, it indeed the disappearance of the premium on gold does not anticipate it. If the Greenback vote had been heavy it might have produced a moral effect on the present Congress, which would have led it to repeal the Resumption act immediately on coming together next December. But now the last possibility of that is gone.

### A Health-Destroying Vapor.

Is generated by the action of the sun's rays upon damp decaying vegetation, stagnant pools, and marshy, low lying tracts. The true nature of this miasma is by no means clearly understood, but there are two facts in relation to it that are the first, that the periodical fevers which it breeds are of the most virulent type; the second is, that these malarial fevers are rarely cured, although they may be ameliorated, by the ordinary remedies employed to overcome them. The true antidote to the effects of miasma is Hostetter's Stomach Bitters. This medicine is one of the most popular remedies of an age of successful proprietary specifics, and is in immense demand wherever on this Continent fever and ague exists. A wholsomeful three times a day is the best possible preventive for encountering a malarious atmosphere, regulating the liver, and invigorating the stomach.

### NEW PUBLICATIONS.

MEMOIRS OF JOHN HOWARD, the Prisoner's Friend. By CHARLES K. TRUMB, D. D. Cincinnati: Hitchcock & Walden.

This is one of the finest bits of biography which has appeared in this country for some time. John Howard, the philanthropist, died nearly ninety years ago, and lived a life, which for usefulness, has never been excelled in no country, and in no time, and yet this handsome little book is the first biography of this great man which has appeared in this country. Every page of it is full of interest. The life of Howard was an eventful one, a marvelous one, and it reads like the most charming romance. Dr. Trumb, who has done a good service in writing these memoirs, says he has given them upon information derived from Howard's own works, and "without rhetorical coloring, as the great facts of such a life are eloquence enough." His death occurred on the 29th of January, 1790, at Cherson, Russia, while on one of his missions of mercy to the suffering. The people of Great Britain mourned for him, and erected a noble statue in St. Paul's Cathedral, London, in the grand Memorial Hall, dedicated to England's heroes. This monument—designed by the great sculptor, Bacon—has a prison scene in bas-relief, with a figure distributing food and clothing. On the reverse side a long list of virtues and achievements of Howard are enumerated.

The work is very handsomely printed and nicely bound, and in that respect is a credit to the publishers. It is for sale by Hitchcock & Walden, Chicago.

STUDIO, FIELD, AND GALLERY: A MANUAL OF PAINTING FOR THE STUDENT AND AMATEUR. WITH INFORMATION FOR THE GENERAL READER. By HORACE J. MULLIN. New York: D. Appleton & Co. Chicago: Jansen, McClurg & Co. 50c. Price, 1.50.

This is a little book which should be in the hands of all students and amateurs. It gives suggestions and explanations which will prove valuable to all students. It is written in a popular style, and is appropriately illustrated. For sale by Jansen, McClurg & Co., Chicago.

Jansen, McClurg & Co., have added another to their popular series of classical text books, it being "Cicero's Tusculanae Disputationes." The text is clear, and for this class of publications is remarkably free from typographical errors, which prove so perplexing to the student. It is of pocket size, and at the popular price of 65 cents, is within the reach of all.

Messrs. Jansen & McClurg have also an absorbing little book, "Jolly Good Times at School; also Some Times Not so Jolly." Price \$1.25. It is delightful reading. This also can be found at Sutherland's.

The majority of Wall street houses and men have a world wide reputation for soundness and honesty. The old house of Alex. Frothingham & Co., 12 Wall street, New York, is entitled to absolute confidence. They state that an investment of

Put on your heavy boots now, and unchain the dog—the tree pedlar is loose.

More than one-half of the total population of France depends on agriculture as a means of living.

The German colonies near Marengo, Iowa, were established twenty years ago; they now own 30,000 acres of land, valued at \$50 per acre.

Owing to the famine in China, a large demand for breadstuffs from the Pacific slope has been developed, and all the steamers from San Francisco for China go out fully loaded with flour.

It is computed that Minnesota is capable of producing 700,000,000 bushels of wheat annually, and that the waterpower of Minneapolis alone can manufacture half of it into flour.

A house too closely shaded by trees will be apt to suffer from dampness. In building, let the living and sleeping rooms, as far as possible, face toward the South, and thus gain the advantage of the sun's rays. The sun is a great preserver of health.

The United States imports annually over \$300,000,000 of articles which could as well be produced by ourselves. Some of these articles are paper materials, rice, barley, hemp, jute, flaxseed, silk, waxes, fruits, nuts, wool, sugar and molasses. Nearly \$100,000,000 is paid in gold to other countries annually for sugar and molasses.

The Mexicans have a method of subduing fractious horses and such as are inclined to run away, which might be introduced here with profit. A horse or mule is so arranged that the driver or rider can in an instant draw it directly over the eyes of the animal, effectually blinding him. When this is done the horse instantly becomes quiet, and a repetition of the blinding two or three times gradually results in his becoming quiet and docile. Such an arrangement would be a valuable appendage to the headgear of such horses as are disposed to run away.

Dissolve common salt in water, sprinkle the same over your manure heap, and the volatile parts of the ammonia will become fixed, save from their having united with the muretic acid of the common salt, and the soda thus liberated from the salt will quickly absorb carbonic acid, forming carbonate of soda; thus you will retain with your manure the ammonia that would otherwise fly away, and you have a new and important agent introduced, viz.: the carbonate of soda, which is a powerful solvent of all vegetable fiber.—*Chattanooga Farmer.*

A method in practice among the best butter makers in England for rendering butter firm and solid during the hot weather is as follows: Carbonate of soda and alum are used for the purpose, made into powder. For twenty pounds of butter one teaspoonful of carbonate of soda and one teaspoonful of powdered alum are mixed together at the time of churning and put into the cream. The effect of this powder is to make the butter become firm and solid, and give it a clean, sweet flavor. It does not enter into the butter, but its action is upon the cream, and it passes off with the buttermilk. The ingredients of the powder should not be mingled together until required to be used, or at the time the cream is in the churn ready for churning.—*Cincinnati Price Current.*

**Territorial Farmers.**

A correspondent of a western newspaper describes a farm near Fargo, Dakota, embracing about 100,000 acres, owned by half a dozen capitalists, of whom George W. Cass, of Chicago, is one. It is divided into sections of 2,000 acres, each section having its superintendent and assistants, and being managed with the most exact system. All the latest improvements in farming have been introduced, including the telegraph and telephone, communicating with different parts of the vast area. This year 13,000 acres of wheat have been planted and harvested, and next year 20,000 acres will be planted. The yield has been 25 bushels to the acre, bringing \$1 per bushel, two-thirds of which is net profit. The chief superintendent has been shipping ever since daily. He expects to have in due time 40,000 acres under cultivation, and to bring his annual production of wheat up to a round 1,000 bushels. There are many cultivated farms in the Territory of 1,000 to 2,000 acres, and Dakota promises to be one of the greatest wheat-producing regions in the entire West.

**Influence of the Moon on Crops.**

A correspondent of a New York paper was planting potatoes in the light of the moon, or in the increase of the moon; several of his neighbors were present and a discussion arose as to the effect the moon had on the different crops. Answering their correspondent's inquiry, the paper said: "There has been always a power of superstition that the moon exerts a great influence upon the affairs of mankind, and this idea has prevailed chiefly among those who did not understand the laws of Nature with years of experience and evidence to sustain it, does not tear down, make sick to make well, no harsh treatment, no trifling, no flattery. We know 'he cause and the remedy needed; no guess work, but knowledge gained by years of experience in the treatment of chronic diseases exclusively; no encouragement without a prospect. Candid in our opinions, reasonable in our charges, claim not to know everything, but cure everybody, but do lay claim to curing the sick, and common sense. We invite the sick, no matter what their ailment, to call and investigate before they abandon hope, make trifles of their ailments, and decide for free: it will cost nothing as consultation is free. Visits made regularly.

**Sowing Grass Seed in the Fall.**

In this country the fields are usually seeded to grass in spring, but it sometimes happens that from various causes the crops will not be good and after the grain crops are taken off more or less of bare spots will be found. Where most of the field is seeded good, and only occasional bare spots are found, it will be best to sow grass seed now at any time, and if the ground is moist the start will be given before winter. In many places fall seeding is preferred to spring, a better catch being obtained than when the seed is sown along with a grain crop. In this case a coating of fine manure should be harrowed in with the seed to give it a better quality, and if the ground is fields that were seeded last spring and are

## BRIEFLETS.

Preachers are plenty.  
How did you like Howe?  
There will be a good chance to-morrow to hear new sermons.

Vankirk has the best fresh oysters in the city at 35 cents per can.

The Mutual Improvement Club opens the season next Monday night.

Rev. J. L. Jones has returned from the Conference at Charlotte, Michigan, and will be in his place to-morrow.

The Rev. Henry Sewell, late of Milwaukee, now pastor of Jackson Street Methodist church, has arrived in the city.

Rev. T. P. Sawin has promised to deliver a lecture some time this winter before the Kamien Society, of Albion Seminary.

The choir at Christ church will sing together for the last time to-morrow, at which time they will render a choice programme.

The Rev. Mr. Whipple, a returned missionary from Persia, will address the congregation of Christ church to-morrow evening on invitation of the pastor.

John Wingate returned last evening from the East, where he has been buying dry-goods to stock up the store now occupied by King, the stationer. He will open soon.

Mrs. J. B. Carle, who has been sick for about two weeks, is now dangerously ill, and it is feared she will not recover. To-day her condition is a little more hopeful than yesterday.

John Morrisey, the ball tosser, who has been with the Oswego club, has arrived home again. Several Eastern clubs want him for next season, but he has not accepted any offers.

Dr. Horne has returned from his trip to merry old England. Two weeks ago today he was on Irish soil, and now [he is] at home among friends. His voyage was as enjoyable as it was speedy, and his stay abroad has highly improved his health.

The sad news comes from Racine that Mrs. M. P. Kinney, the widow of the former pastor of the Congregational church in this city, died in that place October 5th, at the age of sixty years. Mrs. Kinney has many warm friends here who will be saddened at learning of her death.

Rev. Mr. MacLean, rector of Trinity Episcopal church, has returned from his trip to Kentucky, and to his old home. He went thither to perform the marriage ceremony for a friend, and improved the opportunity to visit his old home also. He will be at his post to-morrow as usual.

J. & D. Creighton are receiving a heavy stock of new goods at the Centennial Store, and their shelves and counters are loaded with as choice an assortment of dry goods as can be found anywhere, and the goods are being marked clear down in price. Step in and take a look at the new display.

In another column will be found an announcement of the fall and winter opening of George Stockton. He has an especially fine and large stock of cloaks and cloakings, waterproofs and cassimeres. In velvet, shawls, woollens and flannels, he also offers special inducements both as to quality and price. See his advertisement.

Prof. Gorton, of Fox Lake, is in the city, and will remain until Monday, as the guest of Mr. N. O. Dearborn. He will then proceed to Illinois to visit relatives there. About twenty-four years ago Mr. Gorton taught school for two years in the old academy building in this city, and will be remembered by many of his old pupils, who have since grown to maturity.

Last night as Hal Dewey was eating his supper he noticed a little blaze near the barn of the old Williams house and on rushing to it found that a pile of straw beside the barn was on fire. He managed to extinguish the flames before any damage was done. From the appearance of the blaze and the fuel, it looked like an attempted incendiarism.

There was an unusually large attendance at the Temple of Honor meeting last evening. A dozen or so Templars from Beloit were also in attendance, they having come up to watch the workings of their brethren here. An initiation was gone through, and at its close a number of stirring speeches were made by Mayor Johnson, Mr. Merrill, Mr. Hays, and Mr. Noyes, from Beloit.

M. T. Skiff, the efficient business manager of the Hyers' Sisters Combination, was in the city to-day, and completed arrangements for the appearance of that most excellent troupe at the Opera House, Wednesday evening October 30. They will appear in the opera bouffe extravaganza entitled "Urtine," which is meeting with marked success. They have added to their numbers and now have thirteen first-class artists.

Smith & Bestwick have now one of the largest and finest stocks of dry goods in the west, and with their present prices it is not to be wondered at that their counters are thronged with customers daily. In another column will be found their advertisement which gives further particulars. No one should fail to look it over. The goods and prices are fully up to all they claim for them, and the public should bear the fact in mind.

ARRESTED FOR BURGLARY.

Johnny Roethinger and William Lee charged with Burglary, Lawrence & Atwood's Store.

Marshall Keating has been busy for several days working up the burglary which was committed at Lawrence & Atwood's store a short time ago. For this purpose he has been spending several days in Chicago following up pointers and this afternoon he arrived home again bringing game with him. He had two prisoners, one of whom is Johnny Roethinger, and the other a young fellow of about the same age, calling himself William Lee. They were found in Chicago and are now lying in jail here to await examination on the charge of burglary. They will probably be brought before Justice Pritchard next Monday. Marshall Keating also secured a portion of the stolen goods. Young Roethinger is known here, and his record is not over and above good. Young Lee is a stranger who was first

noticed here a few days before the burglary was committed. Marshall Keating deserves great credit for the diligence and shrewdness with which he has worked up the matter.

## POINTS OF PIETY.

The Presbyterians still in Session.

## Details of their Doings.

Last evening there was an interesting missionary meeting held in connection with the Synod, now in session in this city. The first speaker of the evening was Rev. T. C. Kirkwood, of Fond du Lac, who spoke on "Watchman! what of the night?" He gave an historical account of the original use of this question, it being a taunt flung by the Edomites at the children of Israel, referring to their night of captivity. It had long since ceased to be a mere taunt, and was an anxious query passed from watchman to watchman as they stood upon the walls of Zion. The answer was a most hopeful one. The speaker pointed out some of these causes of hope and presented facts and figures to show that the good work was being most successfully carried on.

Rev. J. E. Wright, of Madison, was the next speaker, his topic being "Woman's Work for the World's Conversion." He showed what had been done, what was being done, and the grand outlook for the future, if women would be but true to their duty.

Rev. J. McLean who was expected to speak being absent, Mr. M. L. Whipple spoke in his stead. Mr. Whipple is a missionary to Persia, and is now spending a short time in this country, recuperating his health. He gave a very interesting address, with points which occasionally thrilled the audience.

## THE WOMAN'S SYNODICAL SOCIETY.

Yesterday afternoon this society closed its session. Several papers of marked interest were read. Mr. Whipple made a very interesting address. The question box conducted by Mrs. A. H. Vedder, of Milwaukee, was one of the most interesting and instructive features of the occasion, the queries being well put and well answered.

## TO-DAY'S DOINGS.

The devotional exercises at the opening of the session of the Synod this morning were conducted by Rev. J. E. Chapin, the subject being "Success in Church Work." The most of the day was taken up with miscellaneous synodical business, and gathering up the gleanings of the meeting.

## THIS EVENING.

There will be a most interesting session at this evening at the Presbyterian church in behalf of Home Missions. Rev. D. Stuart Banks will speak on "The Work of Home Missions, as it is now opening to the church." Rev. Walter R. Frame will speak on "Wisconsin as a Mission Field," and Rev. Jacob Post, D. D., will speak on "Obligations which our church owes to the Board of Home Missions."

The services to-morrow are given in connection with the other church notices.

## WHO WAS WOUNDED?

A Shooting Affair Near the Fair Grounds.

There was a lively scene at the Fair grounds last night. It appears that a young man named Ransom, who works in the barn where the fast steps are quartered, was about entering the building where he and others sleep, when a stranger attacked him with a brick, and seemed disposed to follow it up by further violence. The affray was quickly brought to a close by Ransom pulling a pistol and firing at his assailant. The stranger placed both hands over his head and crying "My God, I am shot," fell to the ground. Immediately two others jumped over the fence, caught up the wounded man and carried him away, and placed him in one of the buildings on the Fair ground. They then returned to where Ransom was trying to wake up his chums to have them let him in, as the door was locked, and they were asleep. The two friends of the wounded man commenced another attack on Ransom, but it did not prove to be a serious one, and was soon brought to a close, it appearing that they had made a mistake in their man, and from their talk it was judged that they wanted Billy Davy, who also works there, and that they had come thither to settle some old score with him. The party dispersed and their names and residences remain a mystery. Ransom says he was chased one night not long ago, by a stranger, who followed him from Main street almost to the base-ball grounds, when Ransom turned and asked the fellow what he wanted. He wanted fight, and proposed to have it then and there, but after some bantering and exchange of hard words, the fellow discovered that Ransom was not the man he was after, and that he wanted Billy Davy. Whether the assailant last night is the same man or not is not known, but from other circumstances it seems as though he might be. Davy does not seem to be able to throw any more light on the subject. He claims that he knows of no one who would be likely to thus assail him, or who has any grievance to be avenged.

## SENATOR HOWE.

His Speech at Lappin's Hall Last Evening.

A large audience gathered at Lappin's hall last evening to hear United States Senator Howe talk on the political issues of the day. The Bower City Band kept up their enlivening music while the senator was gathering, and promptly at 8 o'clock, the hour announced for the meeting, Hon. James Sutherland called the gathering to order and nominated Hon. H. A. Patterson for Chairman. He was unanimously elected, and stepping to the front, he paid a benedicting tribute to the speaker of the evening, and amid cheers introduced Senator Howe. The Senator after briefly thanking the Chairman and the audience for the kindly reception went at the financial question without waste of

time or words. He pointed out the striking inconsistencies in the democratic-greenback platform, placing one clause in comparison with another and pointing out in a clear manner the contradictions. He then looked at their claims in another light. He showed, step by step, how such financial action, as they propose, would affect the nation and how it would affect every citizen. He brought the truths from an abstract form down to a concrete shape, where they could be seen and handled by all. Senator Howe showed himself a careful and practical student on these questions, and put his points in a plain and unadorned form, which could not but carry conviction to any unprejudiced mind. He indulged in little or no chaff, or story-telling, but plodded right on to the finish, with no turning aside or wavering. It was not one of those rattling, noisy efforts, which keep the audience in a state of uproar, but a calm, deliberate, closely-linked series of arguments, which commanded the close attention of all thinkers. He spoke for two hours in this manner, and from the beginning to the end the audience listened with evident interest and endorsed his position with becoming enthusiasm.

## PREACHERS AND PEOPLE.

Their Bill-of-Fare for To-morrow.

The church folk have availed themselves of the fact that the Presbyterian Synod is in session here, and have secured the services of some of the visiting clergymen for to-morrow as will be seen from the notices given below. Besides the other services there will be a communion service at the Presbyterian church at 10:30 p. m., and in the evening there will be a union meeting at the Presbyterian church, commencing at six o'clock, the gathering being in behalf of Sunday Schools. Rev. E. Dickerson and Dr. J. W. Perkins will give brief addresses to the children. Elder W. P. McLaren will talk on "The Vital Relation between the Church and the Sabbath School," and Rev. D. E. Pierce, will discuss the question, "How can the attendance of the Sabbath School children on Public Worship, be secured?"

This meeting will be closed in time to permit all who desire to attend, the union evening service in the Congregational church which commences at 7:30 o'clock. The topic of talk at this meeting will be "The Church." Rev. T. G. Watson will discuss the question "What is meant by the church?" Rev. W. F. Brown will speak on "What is the Record of the Church to-day?" Rev. H. L. Brown has been assigned the topic "What are the Means for the Advancement of the Church?" and Rev. F. Z. Roessler will close with "What shall the Signs of its Triumph be?"

The other church services to-morrow are as follows: Christ Church.—On Court street, Rev. A. L. Rector, Services at 10:30 A. M. and 7:30 P. M.

WILLIAMS TAKES RICHMOND.

There was a rousing meeting at Richmond, Walworth Co., Thursday evening, addressed by the Hon. Charles C. Williams, as Richmond joins Johnston, Rock Co., a great many Johnston people were present, and it was a great treat to the farming community to have Williams among us. Richmond has had Greenback meetings and been addressed by Stewart and Deacon Wooster, and was called a Greenback town; but Williams' strong arguments Thursday night, changed many men. He gave them nothing but the plain truth, and the people were satisfied that it was the truth, and no campaign along. He spoke two hours and a quarter

to a very attentive audience, and was applauded a great many times. J. M. Evans, of Richmond, was chairman. A. M. Carter, of Johnston, J. B. Pemberton, Perry James, and H. G. Smith, of Richmond, were on the platform. All went home satisfied.

The Greenbackers have been advertising that Hon. C. H. Parker will address meetings all over the country, and no Parker is there, but Stewart. At Johnston they advertised Stewart, and sent Wooster. When they advise Wooster, who will they send? Greenbackism is dying fast, and the country is safe.

An Undeniable Truth.

It is a pleasure to suffer, and if you find a miserable, miserable factory in this beautiful world, it is entirely your own fault and there is only one excuse for you—your unreasonable prejudice and skepticism, which has killed thousands. Personal knowledge and common sense reasoning, will soon show you that Green's August Power will cure you of Liver Complaint, or Dropsy, with all its miserable effects, such as sick headache, palpitation of the heart, sour stomach, habitual constiveness, dizziness of the head, nervous prostration, low spirits, &c. Its sales now reach every town on the Western Continent and not a Druggist but will tell you of its wonderful cures. You can buy a Sample Bottle for 10 cents. Three doses will relieve you. decided-weedm

Fever and Ague Cured for 50 Cents.

Dr. Swayne's Fever and Ague Pills, (without calomel or quinine), are a quick and sure cure in every case for ague and fever, late intermittent and remittent fever, and all diseases having their origin from Malaria. They are a great tonic and preventive as well as cure of all complaints peculiar to malarious, marshy and miasmatic districts. They act on the liver, and brace up the system to a vigorous healthy condition. Notwithstanding these pills are sold for one-half the price that other ague cures are sold for, yet we will warrant them as effective in all cases as any pills or mixture, let the price be compared to the many, and being entirely free from all minerals, their use leaves no bad effects, as in the case of many other remedies. Sent by mail to any address on receipt of price, (in currency or postage stamps), 50 cents a box, three boxes \$1.25, six boxes \$2.50. Address letters, Dr. Swayne & Son 330 North Sixth St., Philadelphia.

## Excelsior Root.

And unwholesome diet at this season of the year may speedily carry you to the grave. Parker's Ginger Tonic, by its corrective action on the entire digestive apparatus, will not only unfailingly cure Diarrhoea, Dysentery, Cholera, Cholera Infantum, Colic, Cramps, Spasms, etc., but will prevent those dangerous disorders from attacking the system. It may save your life, and should always be kept in the house. This pleasant remedy is unequalled for teething children, nursing mothers. Possessing many additional virtues of other valuable roots, it is far superior to Essences of Ginger, without their constipating effects, and while more invigorating than liquor never intoxicates, nor creates any desire for stimulants. It cures Dyspepsia, and its varied symptoms of Headache, Nervousness, Palpitation of the Heart, Wakefulness, Sour Stomach, Constiveness, Liver Disorders, Furred Tongue, Low Spirits, Neuralgia and Rheumatic Pains, enables you to enjoy the fruits and vegetables of the season without fear, and gives comfort after a hearty meal. Buy a \$1.00 bottle of your druggist, A. J. Roberts, or a sample bottle at 15 cents, and test to extraordinary merits. jy3dcedwly-4

## Itching Piles.

The symptoms are moisture, like perspiration, intense itching, increased by scratching, very distressing, particularly at night as if pin worms were crawling in and about the rectum, the private parts are sometimes affected; if allowed to continue, very serious results may follow. Dr. Swayne's All Healing Ointment is a pleasant sure cure.

HOME CURES.—We were great sufferers from Itching Piles, the symptoms were as above described; the use of Swayne's Ointment in a short time made a perfect cure.

J. W. CHRIST, Boot and Shoe House, 334 N. Second Street.

T. C. WEYMAN, Hatter, 8 South Eighth Street, Philadelphia. Reader, if you are suffering from this distressing complaint, or Itching, Itch, Scald Head, Ring Worm, Barber's Itch, any Crusty Scaly Skin Eruption, use Swayne's Ointment and be cured. Sent by mail to any address on receipt of price, (in currency or postage stamps), 50 cents a box, three boxes \$1.25. Address letters, Dr. Swayne & Son, 330 North Sixth Street, Philadelphia. No charge for advice. Sold by leading druggists. jy3dcedwly-3
